Description: One of Russia's leading higher education and research institutions, ITMO specializes in Information Technology, Optical Design, and Engineering. Its forty-nine international research centers generate advanced knowledge and bring top innovative ideas to the market through an established system of R&D support. ITMO's mission is to prepare its graduates for the challenges of the 21st century. At the forefront of scientific research, ITMO tackles some of the world's hardest scientific challenges, and strives to support an environment of interdisciplinary scholarship and innovation. Located in the heart of St. Petersburg, it is steps away from the Hermitage and other museums.
